👤 Profile

I am a highly qualified software developer with over 6 years of experience in developing desktop and web applications using various technologies. My main programming language is JavaScript, and I am currently working as a Front-end developer at Heybooster.

I am passionate about software development and constantly seek to improve my skills and knowledge through research and self-teaching.

I share my projects on Github as open source to not only learn and grow, but also contribute to the development community. As a software developer, I am committed to upholding ethical standards in my work.
